

## Dry Bean Study White Mold, Brooks AB 2011

Study Conducted by Dr. Michael Harding, Innovotech, Brooks, AB Canada

Research Dr. Michael Harding noted:

- Heads Up® improved yield by 40% compared with the untreated check (31.99 Bu/Ac untreated; vs 44.46 Bu/Ac treated)
- Heads Up® had significantly reduced white mold incidence (77% reduction) and severity (84.5% reduction) compared with the untreated check treatments -
